Re: Perry/Sterling Proposal

I enclose a proposed modified second-year budget for the Perry/Sterling environmental study about which I wrote you on August 24, 1978, and October 3, 1978. The project was approved for a two-year period and the enclosure relates to expenditures for the second year. I have discussed the request for additional funds with Dr. Theodor Sterling and recommend that the modified budget be approved. The requested increase amounts to \$17,634 and represents primarily an increase in direct cost salaries.

The project is reportedly going well and Dr. Sterling believes the findings will make a significant contribution to our knowledge about occupational risks.

Best personal regards.

Sincerely,

William W. Shinn
